Cumulative Records Regulations: (continued)

- Gold state winners in the 13-to-15-year-old age group are ineligible to compete in that same category until they reach the 16-to-18-year-old age group.
- There is no limit to the number of records a county can submit in any given cumulative record area.
 - If a creditable cumulative record is not submitted in a project area, no winner will be declared.
 - As of December 1, 2011, some donors had not renewed their support contracts or a donor had not yet been secured for some 2011 programs; therefore, if a donor is not secured or renewed for a category, the state award will be a certificate and medallion.
 - Awards that are provided by state donors will be distributed in the fall of the year selected.

State and District Cumulative Record Awards

District level winners receive a certificate. State level winners receive an award of the following value unless otherwise noted*:

Ages 13 to 15:	Ages 16 to 18:
Gold, \$100	Gold, \$150
Silver, \$50	Silver, \$100
Bronze, \$25	Bronze, \$50

Specific Prize will be determined by the county 4-H program.

Once a member has achieved the Gold Medal at the state level, the 4-H'er may not compete in the same program area until he/she reaches the next age level.

1. The Project Record competition recognizes excellence in annual 4-H Project Records. Youth who have been declared county champions in one or more of the nine curriculum areas listed are eligible to compete for district awards in four age groups: 9 through 10, 11 through 12, 13 through 15, and 16 through 18.
2. District Awards are given for each age group as follows: \$50 value, except for 16 through 18 year olds in the Personal Development and Leadership Category, which supports a trip to Cooperative Leadership Camp in that division. A district winner can attend Leadership Camp only once.
3. Age eligibility is established on January 1. Work on the project may cover no more than 12 months. The 4-H program year is January - December, annually.
4. Records will be held in the County Extension Office after judging. 4-H members may not make improvements on their records after they have been submitted for county competition, with the exception of copying the record in one color of ink. No alterations can be made to the content of the project. This will ensure equal time for competitors to work on their project records. Records are due in the 4-H Youth Development Department office on March 1.
5. A 4-H member may submit up to two project records for district competition. Counties may submit their top two projects in each category for district competition
6. The district award will be mailed to the County Extension Center and distributed as determined by the county 4-H program.
7. Project Records that are partially funded will receive a monetary award which reflects current funding.

A 4-H member can be named a District Gold Winner in a curriculum area only one time for each age category.
